Swisspearl Carat

Unique natural look

Carat Coral 7031, Coral 7032

4 Swisspearl Carat

Unique natural look

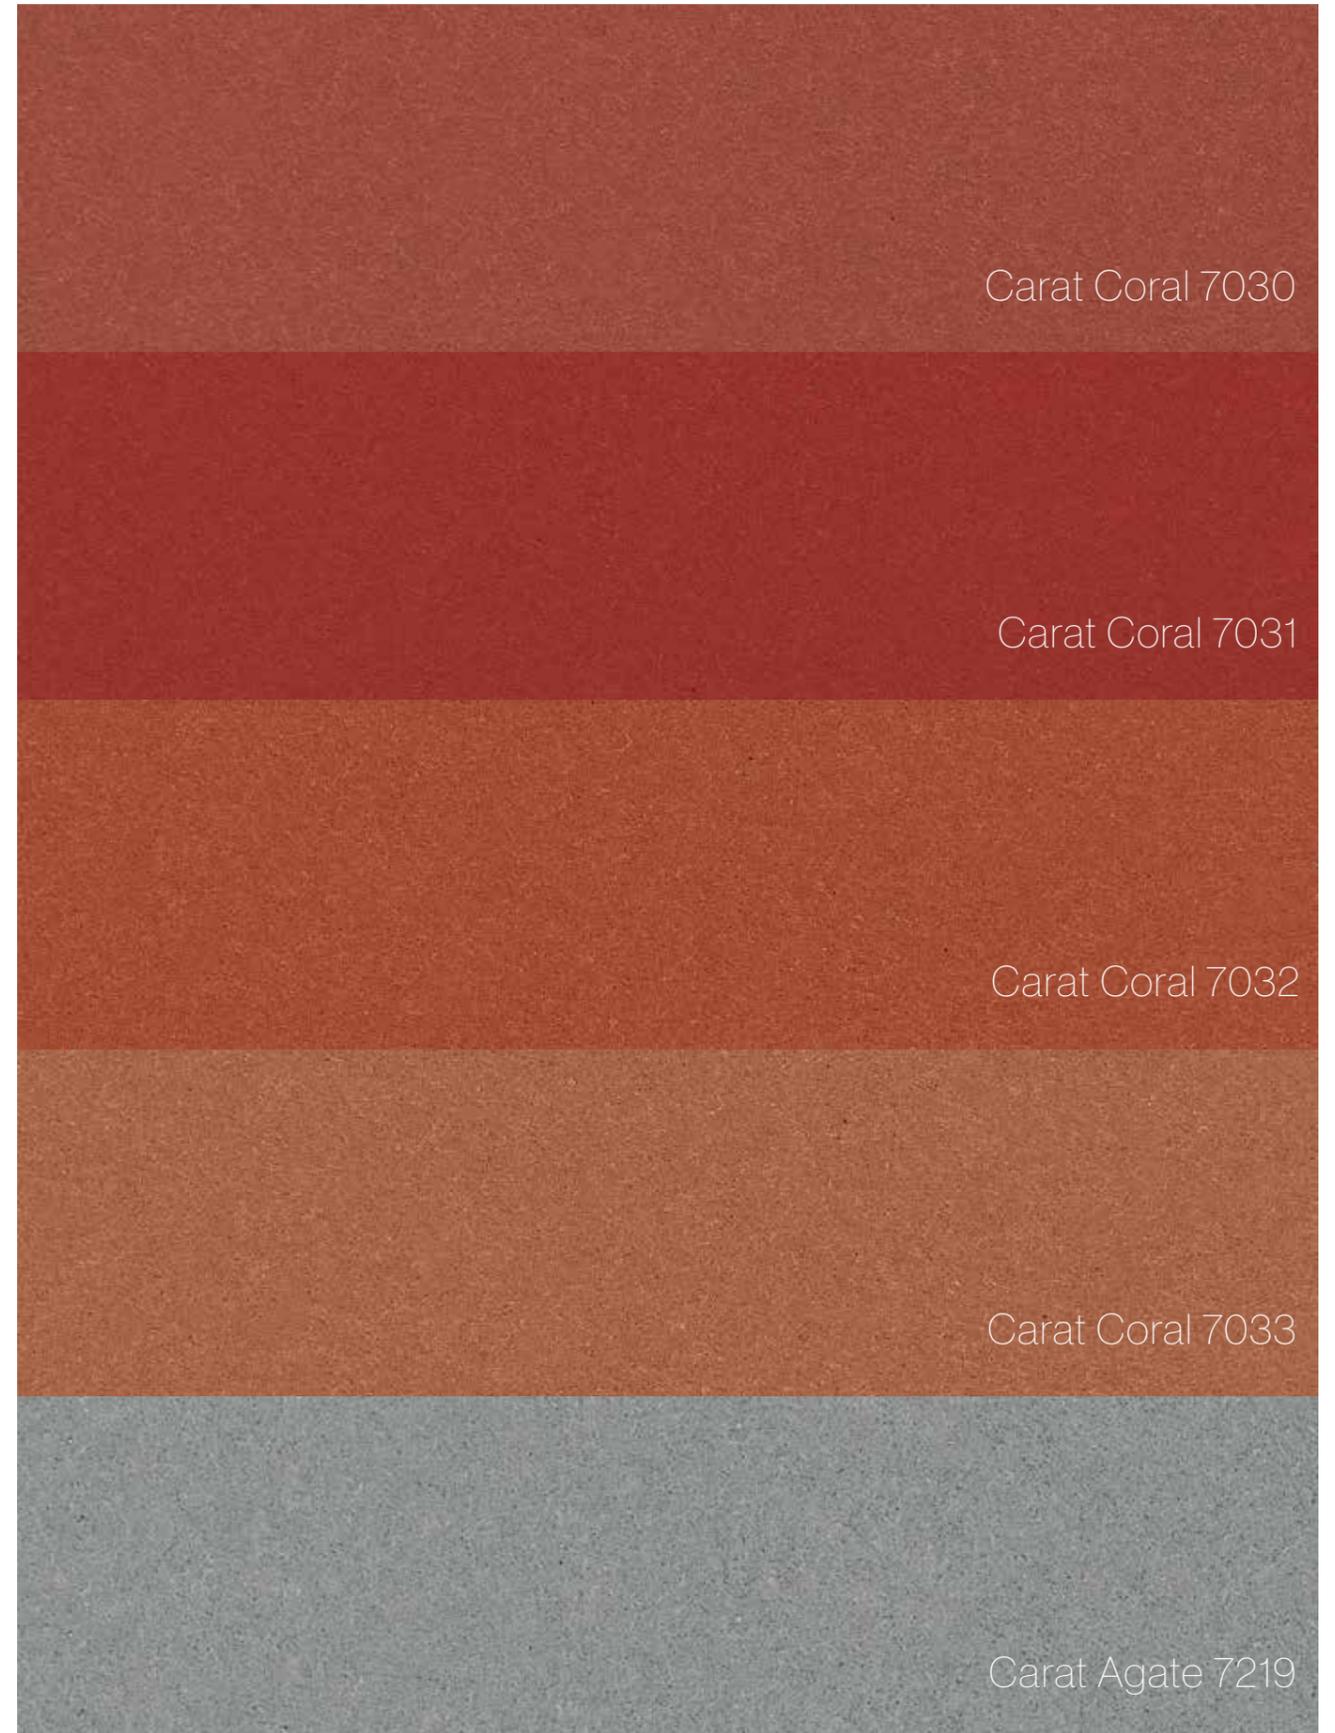

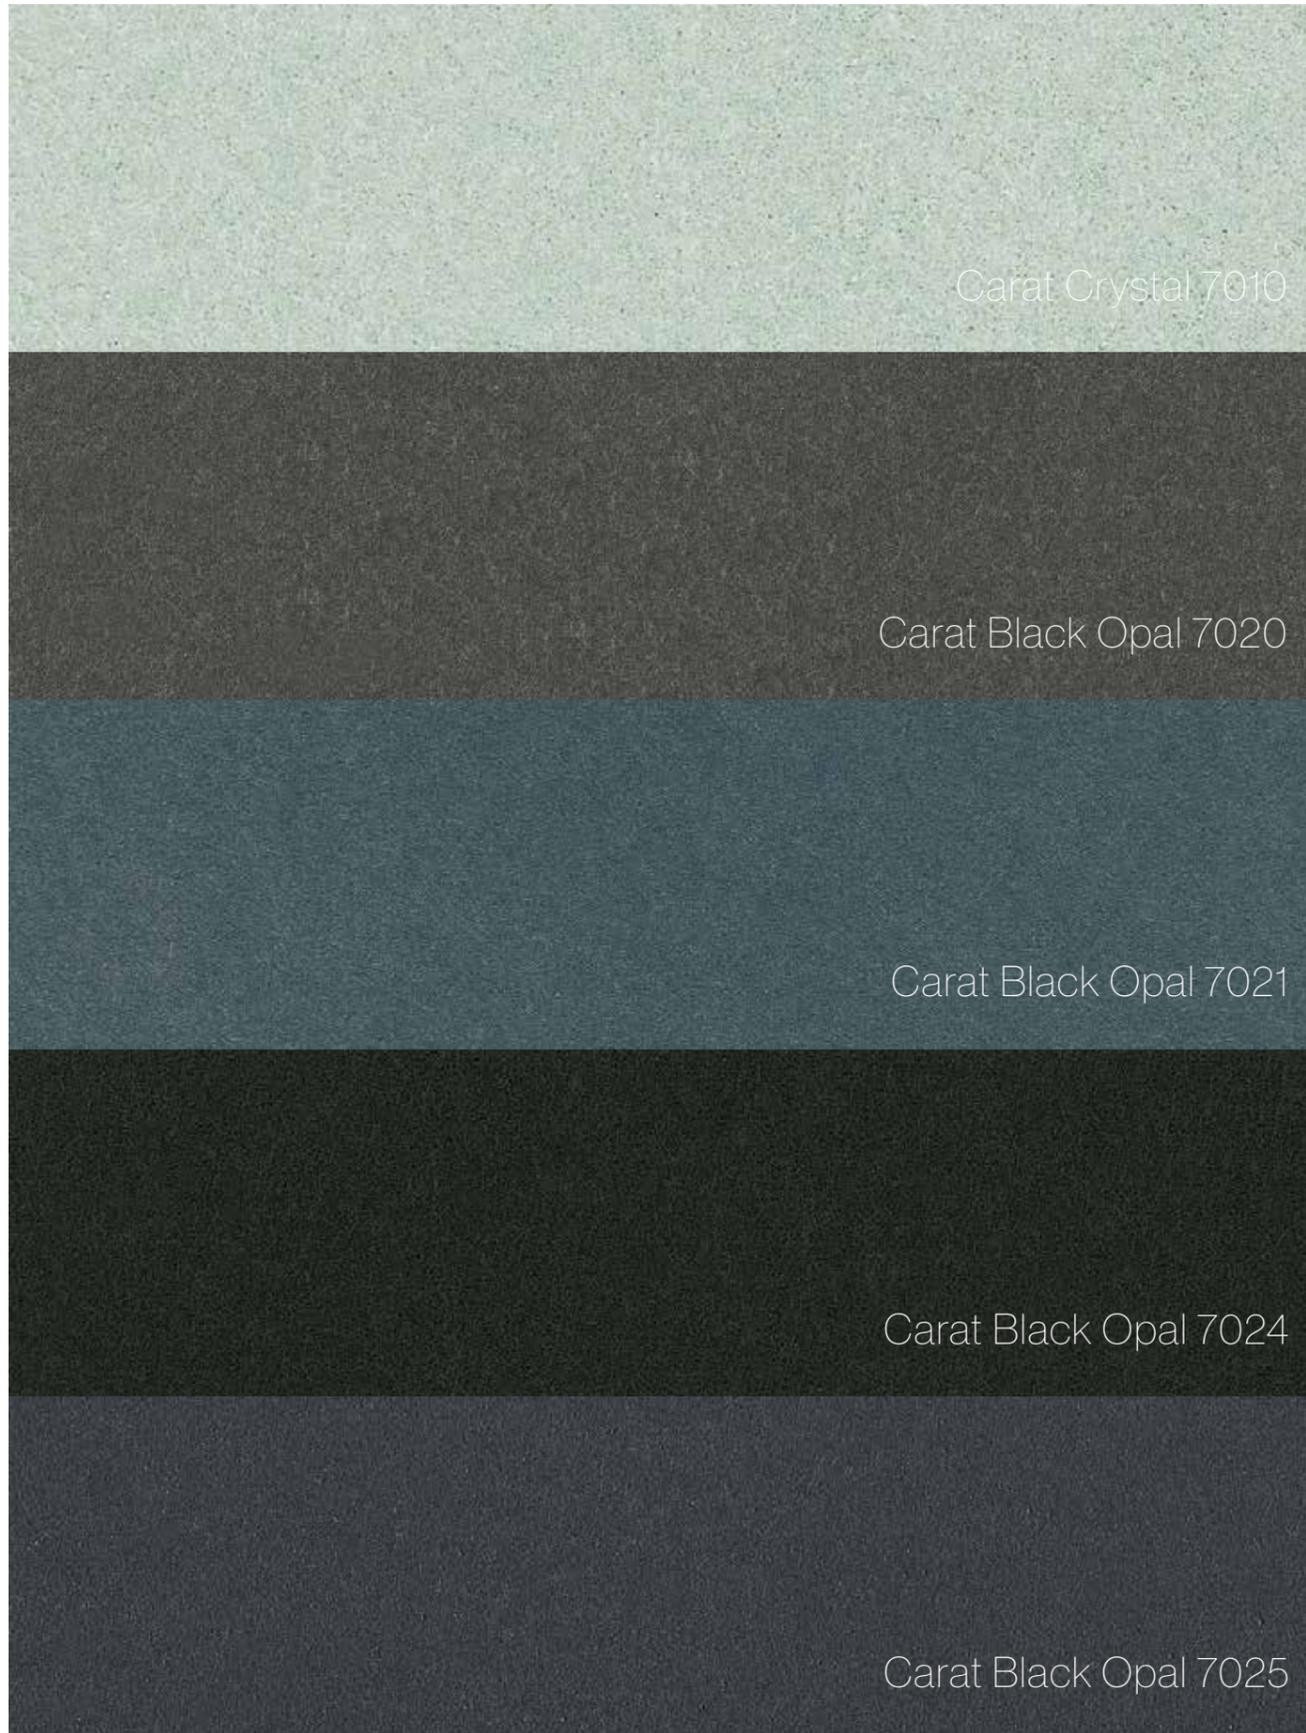

Base panel: Integrally colored
 Top layer: Translucent lightly pigmented
 Standard colors: 27

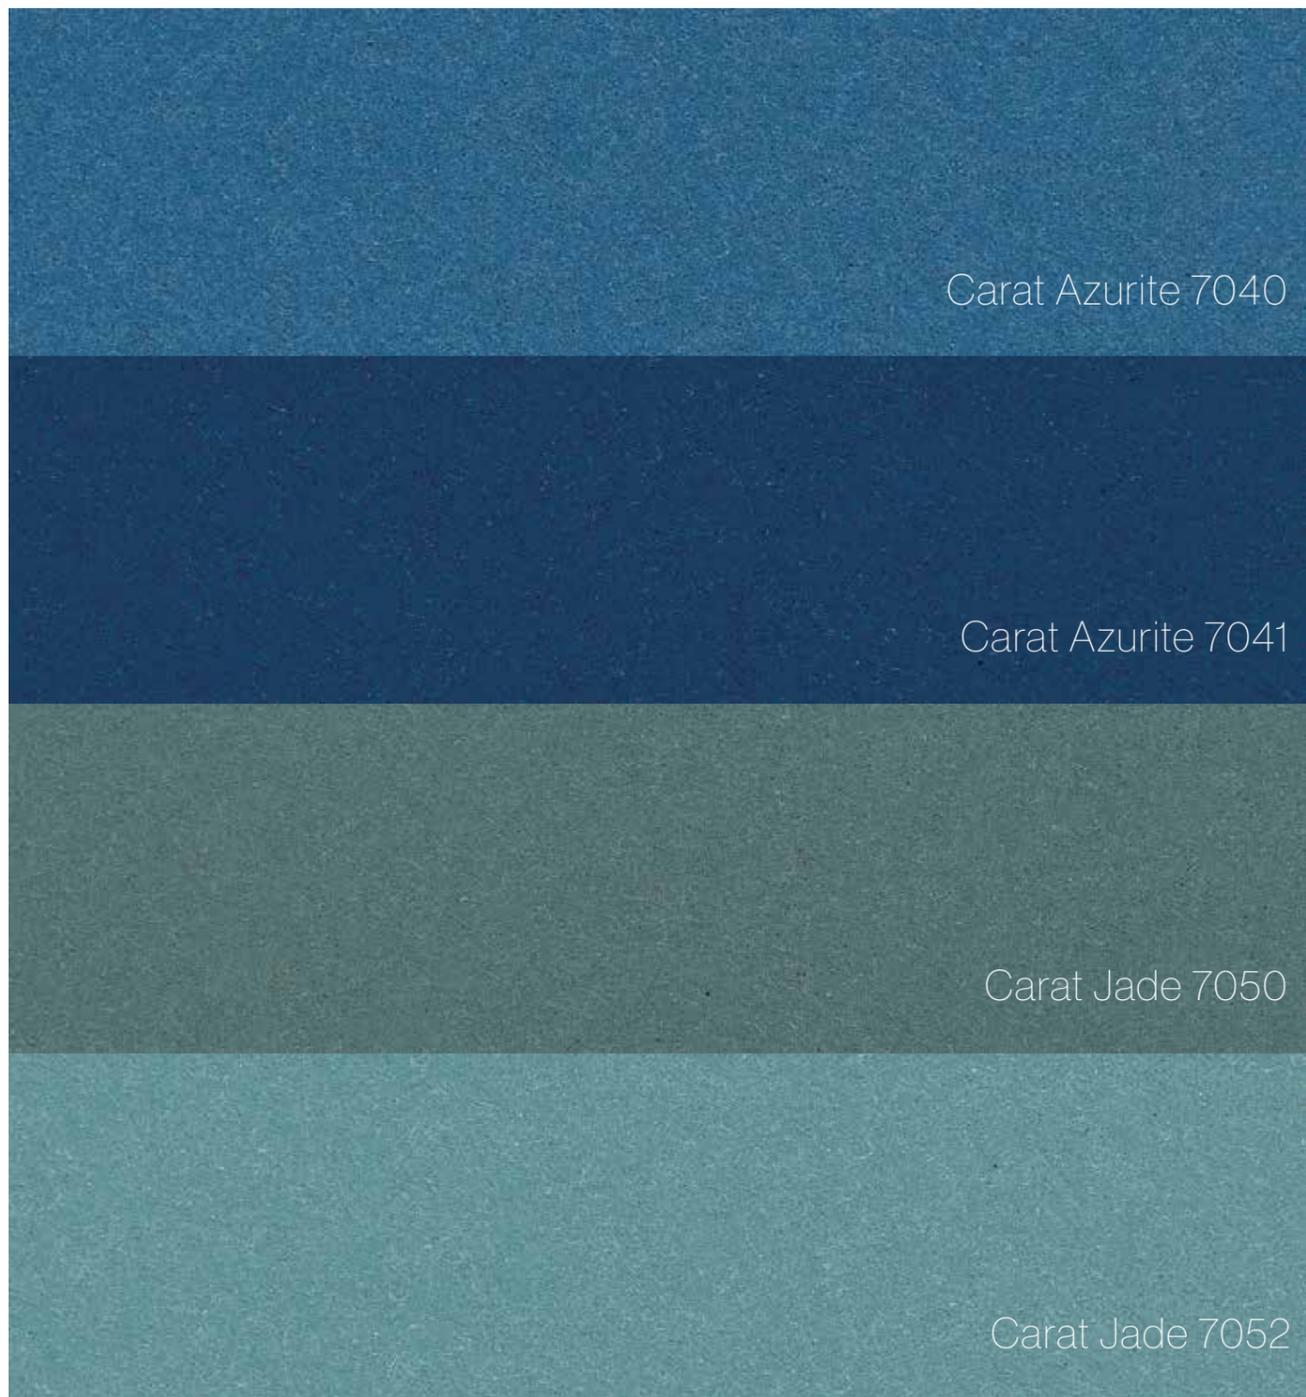

Carat panels are integrally colored with a transparent lightly pigmented acrylic top finish shade in shade. The unique natural look and the timeless beauty of the monolithic material with its delicate vein texture provide an exciting and noble expression to every building.

Carat HR is a special surface treatment which offers an increased scratch resistance and a higher UV resistance. Furthermore, most graffiti can be removed using acetone. Generally the aspect resembles the Carat finish, whereas HR panels have a slight sheen to the surface. Carat and HR panels can be used on the same elevation, if possible with a separation between them.

Carat F provides a slightly unsmooth surface, the thicker coating with opaque pigmentation of this acrylic finish allows vibrant colors. It also provides an increased protection against weathering and UV radiation. Available on request in all standard Carat colors and as custom shades.

Swisspearl Avera

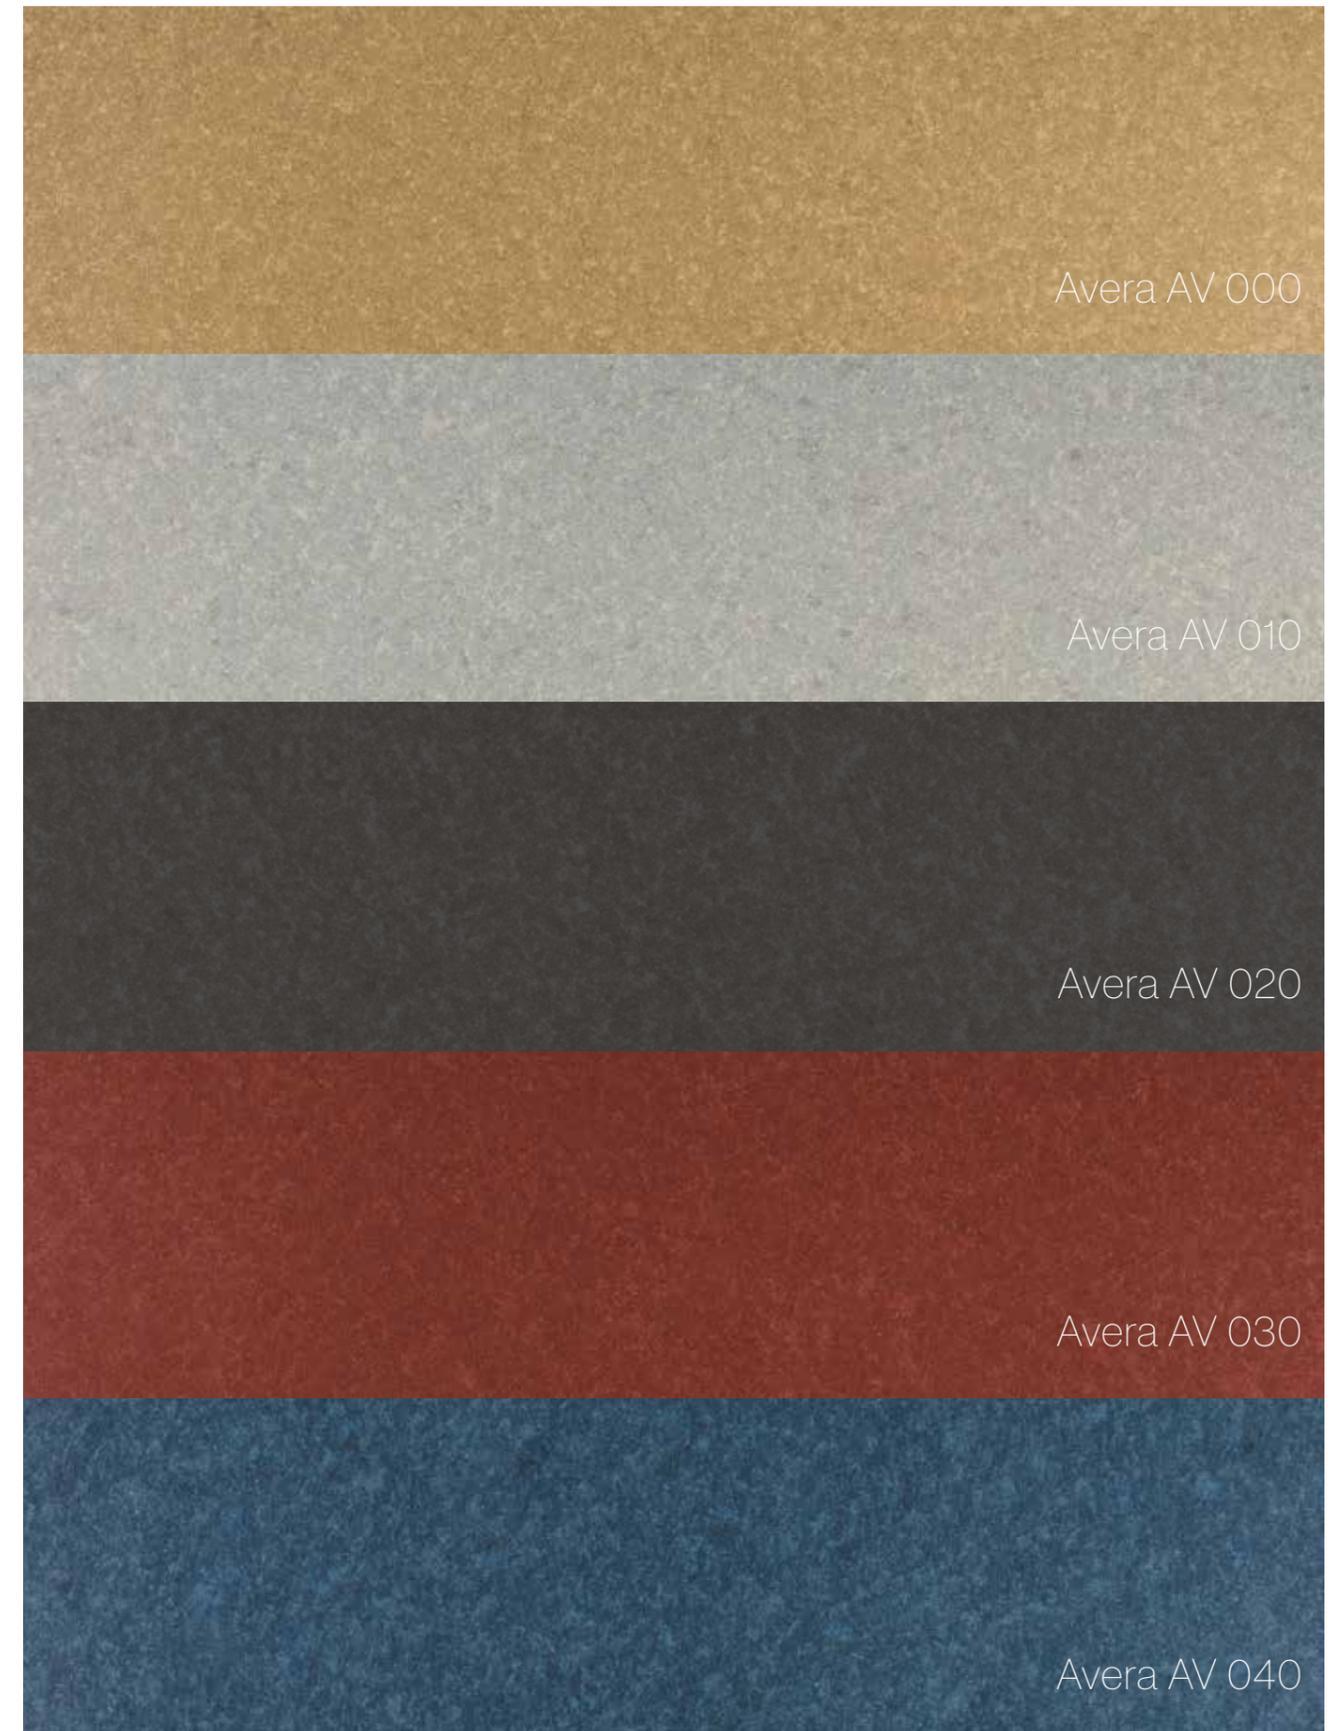

Vibrant texture never seen before

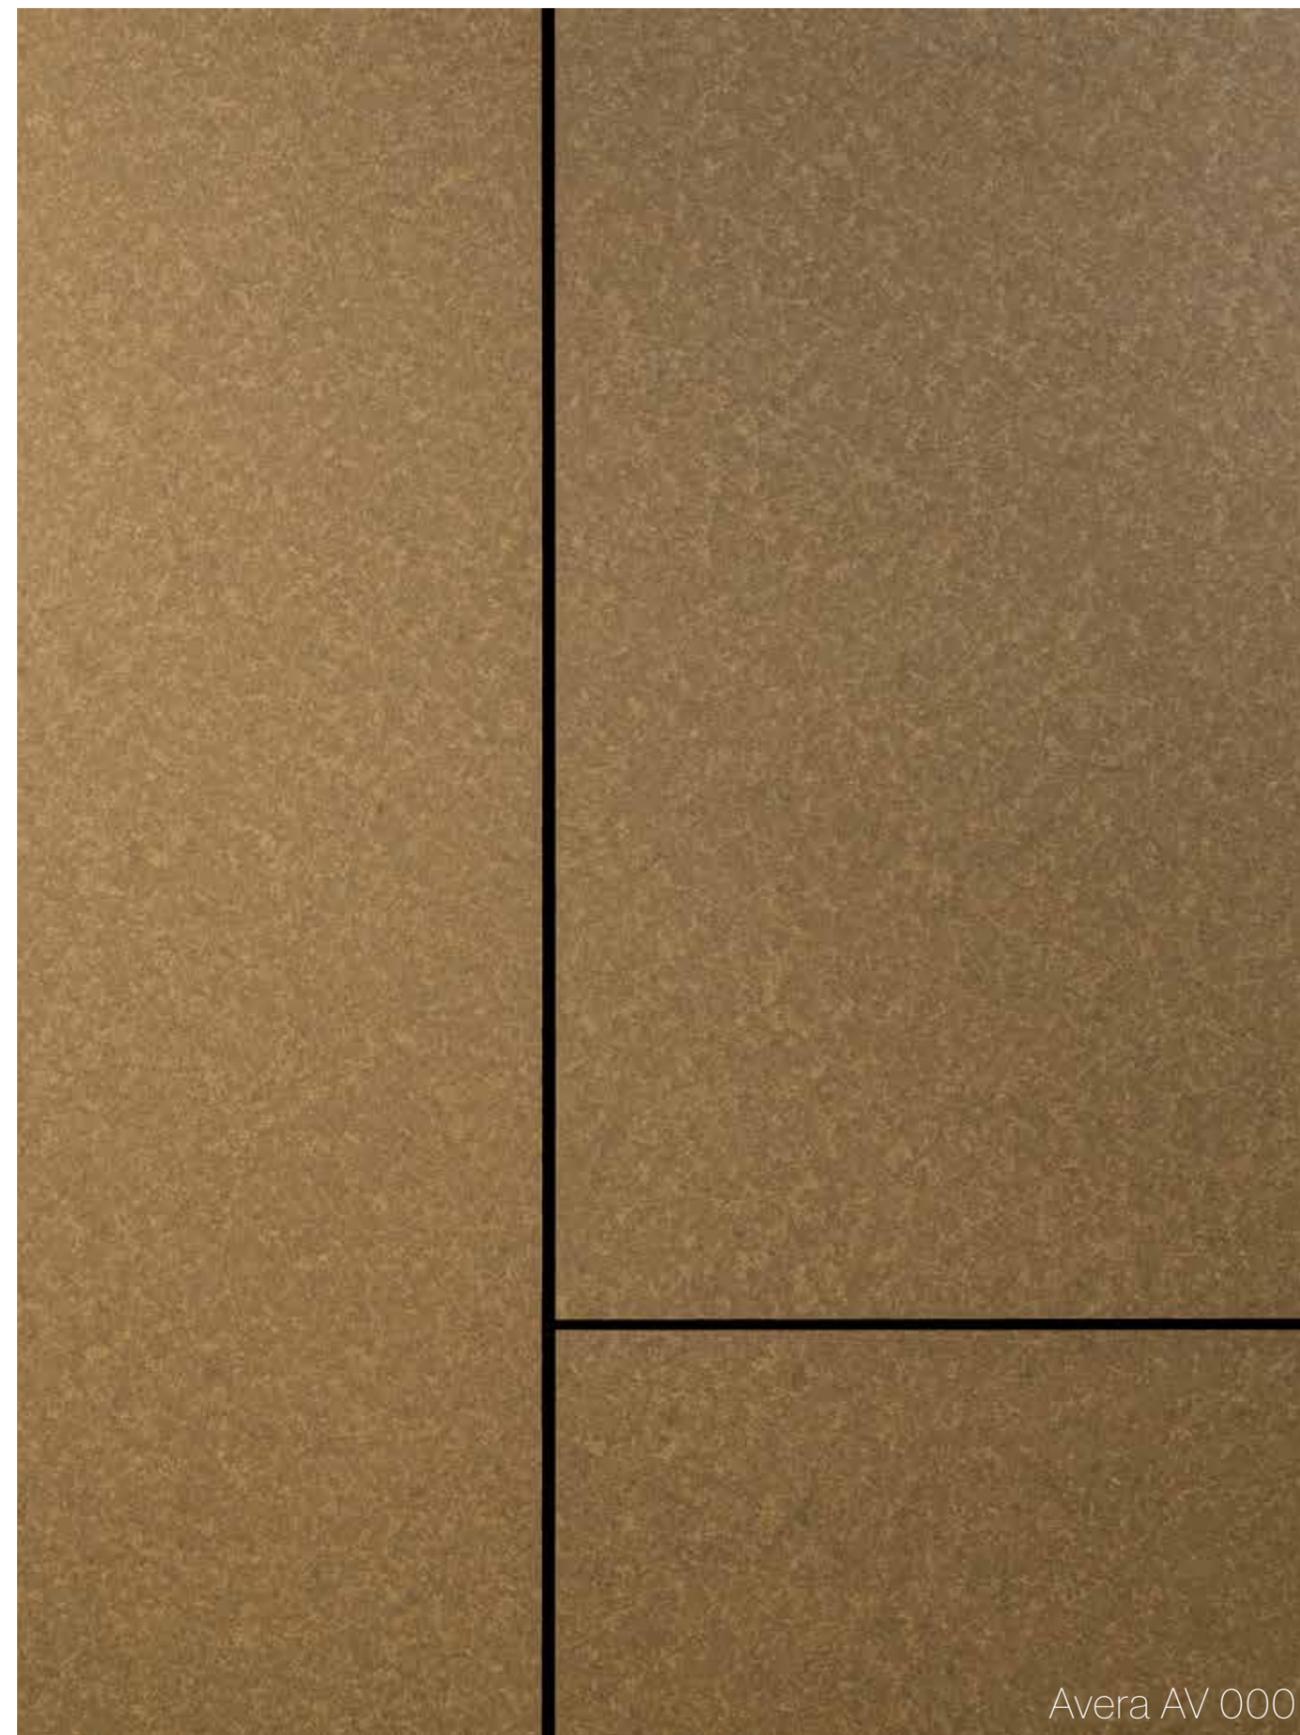

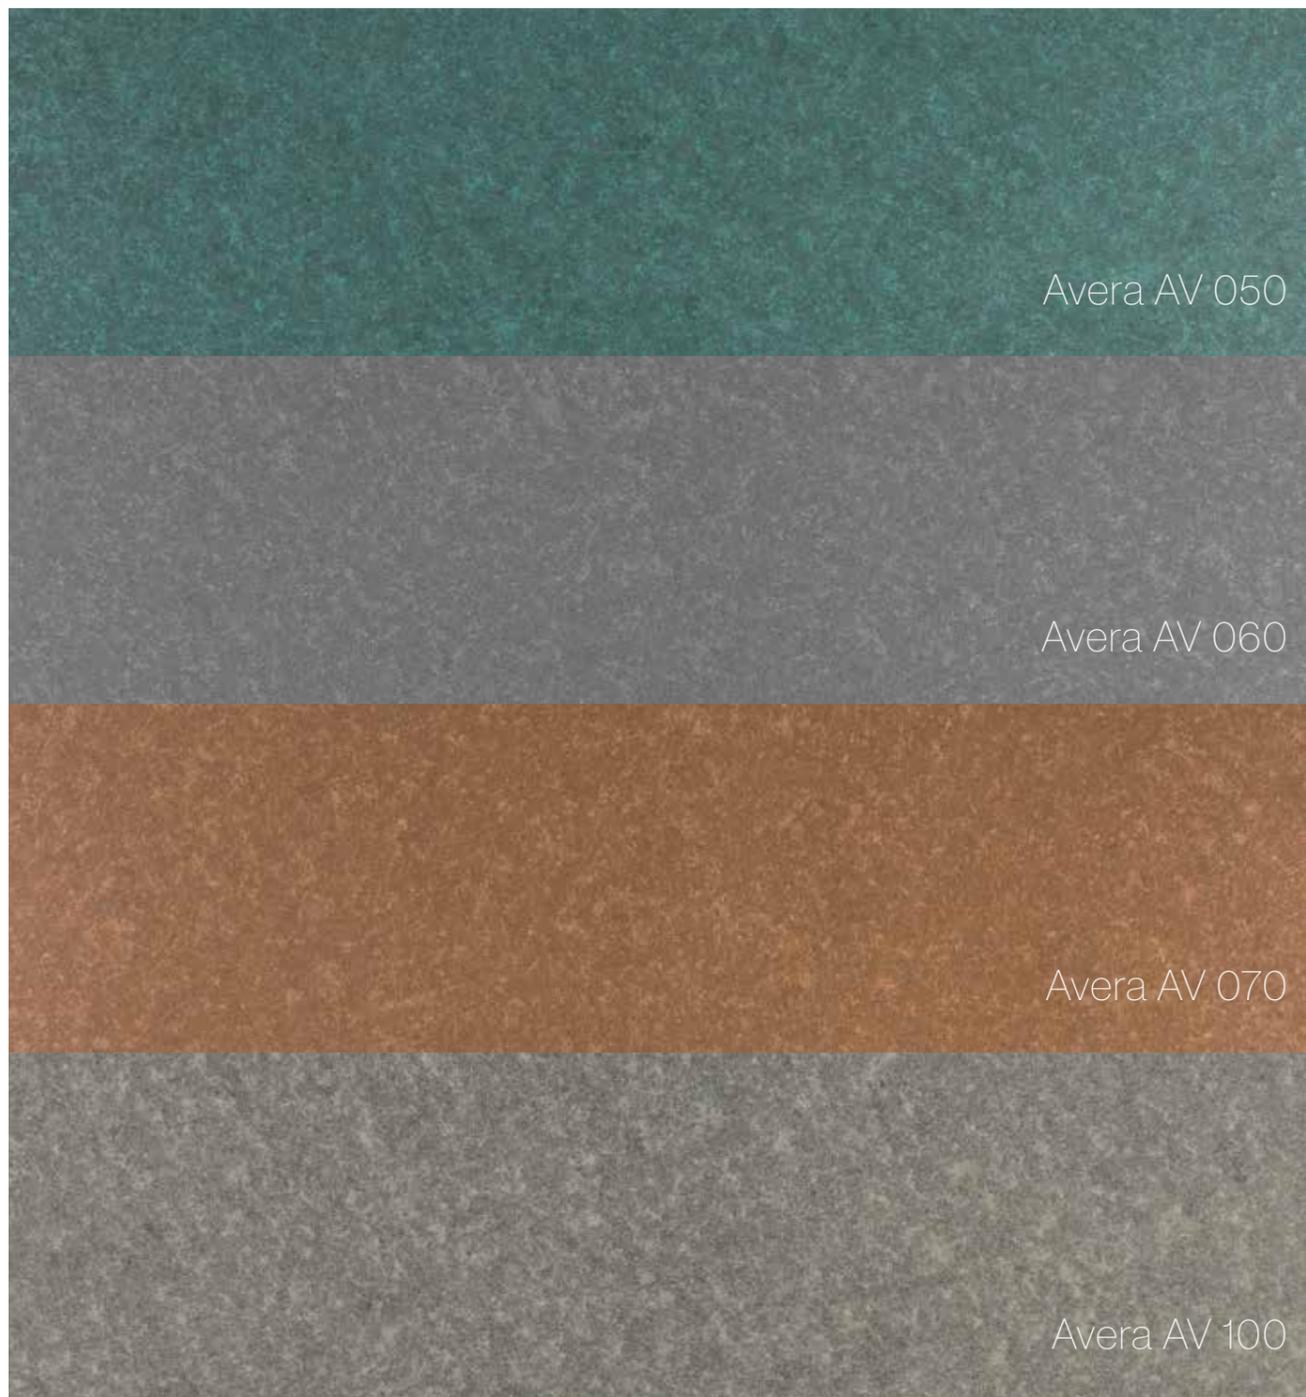

14 Swisspearl Avera

Vibrant texture never seen before

Base panel: Integrally colored
Top layer: Translucent
Standard colors: 9

Avera are solid-colored fiber cement panels with a vibrant texture never seen before. The unique look is characterized by the specifically coordinated dynamic manufacturing process. The resulting natural variation in color tonality and perspective even between the panels expressively emphasizes the authenticity of the material. Avera gives a façade a unique vibrancy. A high-quality invisible coating provides the Avera panels with years of protection from weather effects and lets the original look and texture shine through. The special coating also shows strong scratch resistance and offers lasting defense against most graffiti.

A close-up photograph of a person's hand resting on a grey, speckled surface. The speckles are small and multi-colored, including shades of orange, red, and blue. The background to the left is a dark, textured wooden surface. The overall composition is clean and minimalist, emphasizing the texture and color of the material.

Swisspearl Incora
Stylishly authentic

Incora IN 100

20 Swisspearl Incora

Stylishly authentic

Base panel: Integrally colored
Top layer: Translucent
Standard colors: 2

Stylishly authentic - The innovative Incora façade panel stands out through a vivid spreading pattern and a uniquely balanced interplay of colors. The high quality of every single panel is apparent in the details of the individualized appearance, which is the result of the balanced spreading technique. The large size façade panels are ideal for anyone who want an out-of-the-ordinary finish but also needs optimum functionality. During the manufacturing process, the still-moist panels are sprinkled with high-quality granulated marble that gives them a unique and dynamic look. Every Incora panel is one-of-a-kind. The granulate becomes perfectly embedded into the fiber matrix as the panels are pressed. To ensure longevity, in a final step the panels are finished with a transparent high-scratch resistant coating that also serves as protection against weather and UV radiation.

Swisspearl Reflex

Changing lighting and angles of vision

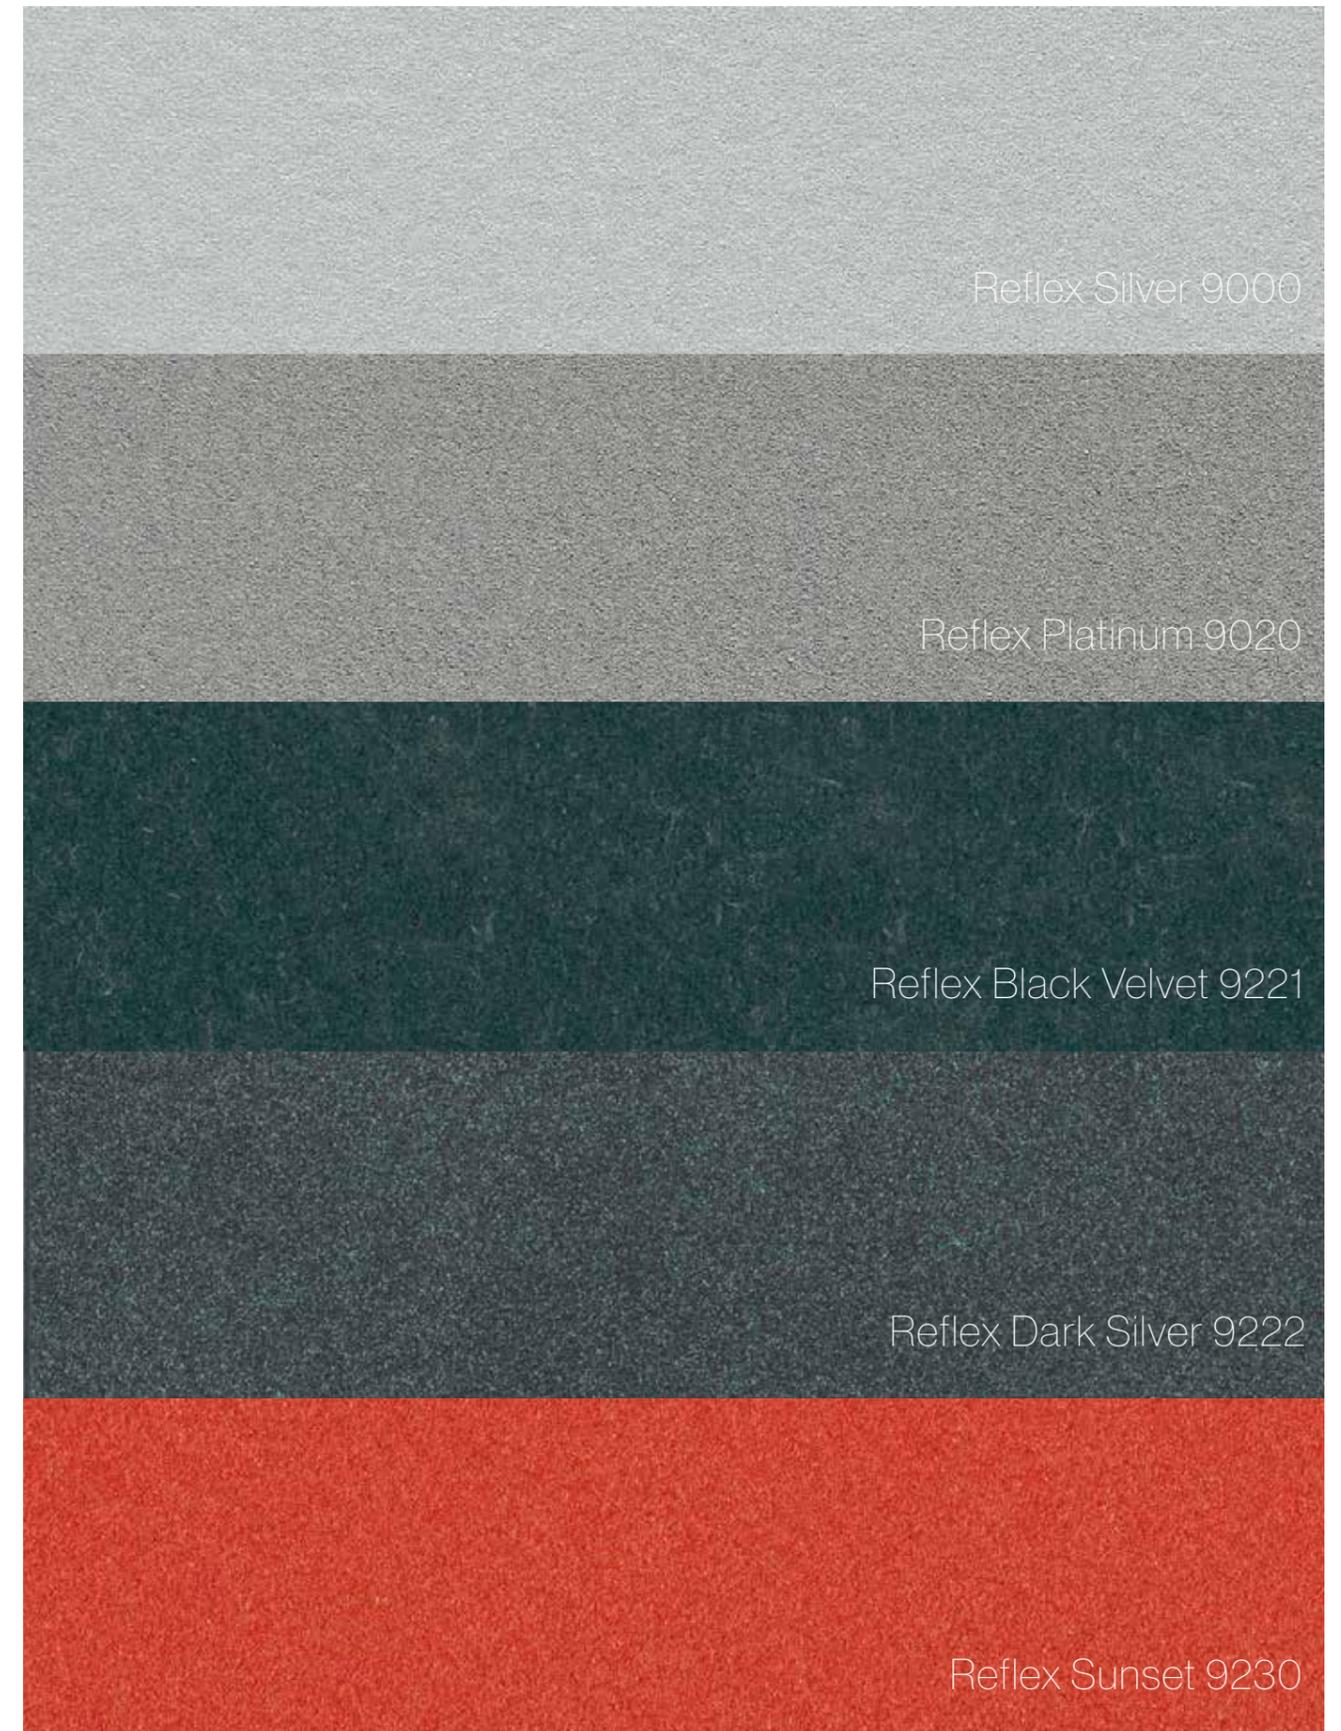

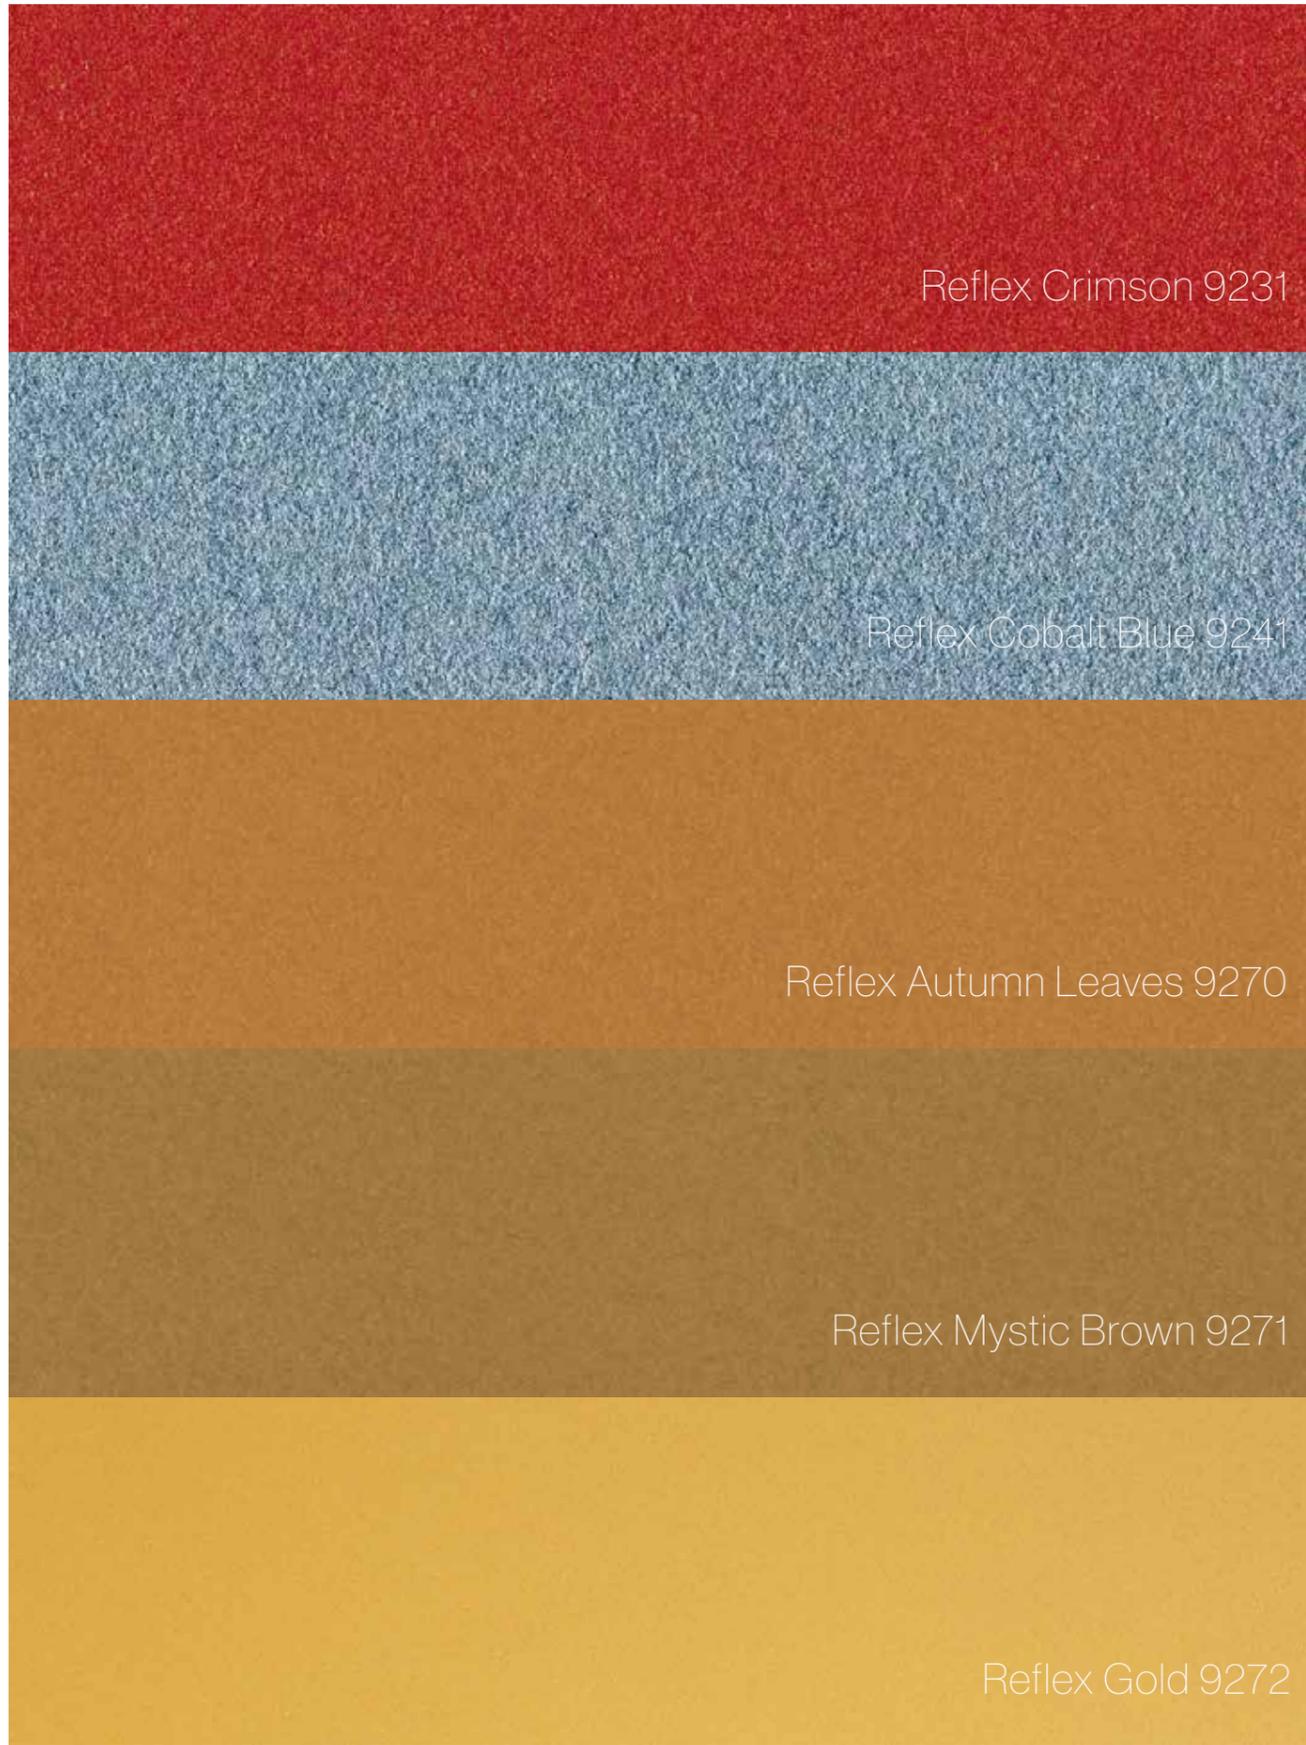

24 Swisspearl Reflex

Changing lighting and angles of vision

Base panel: Integrally colored
Top layer: Iridescent
Standard colors: 12

These panels are directional, mostly integrally colored and have an iridescent surface coating which is purely acrylic. Changing lighting and angles of vision produce amazing nuances in color shades. For cutting and installation manufacturing direction of sheets is to respect.

Swisspearl Nobilis

Classic fiber cement appeal

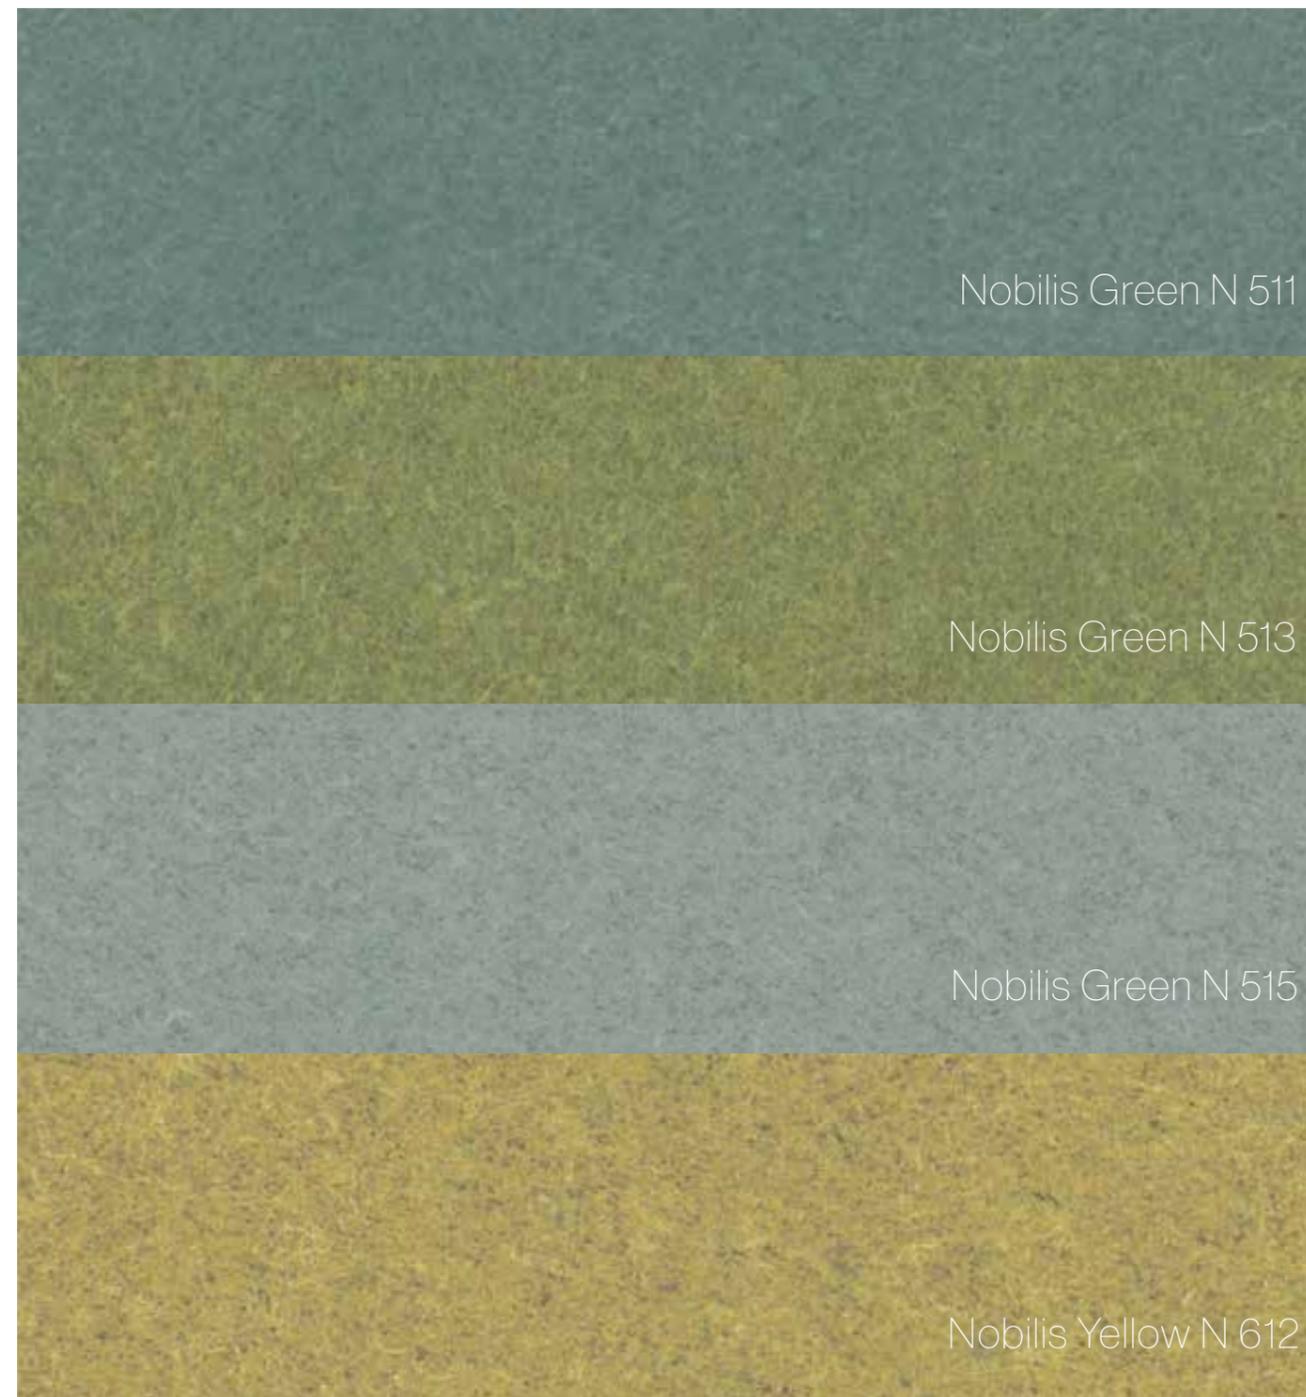

30 Swisspearl Nobilis

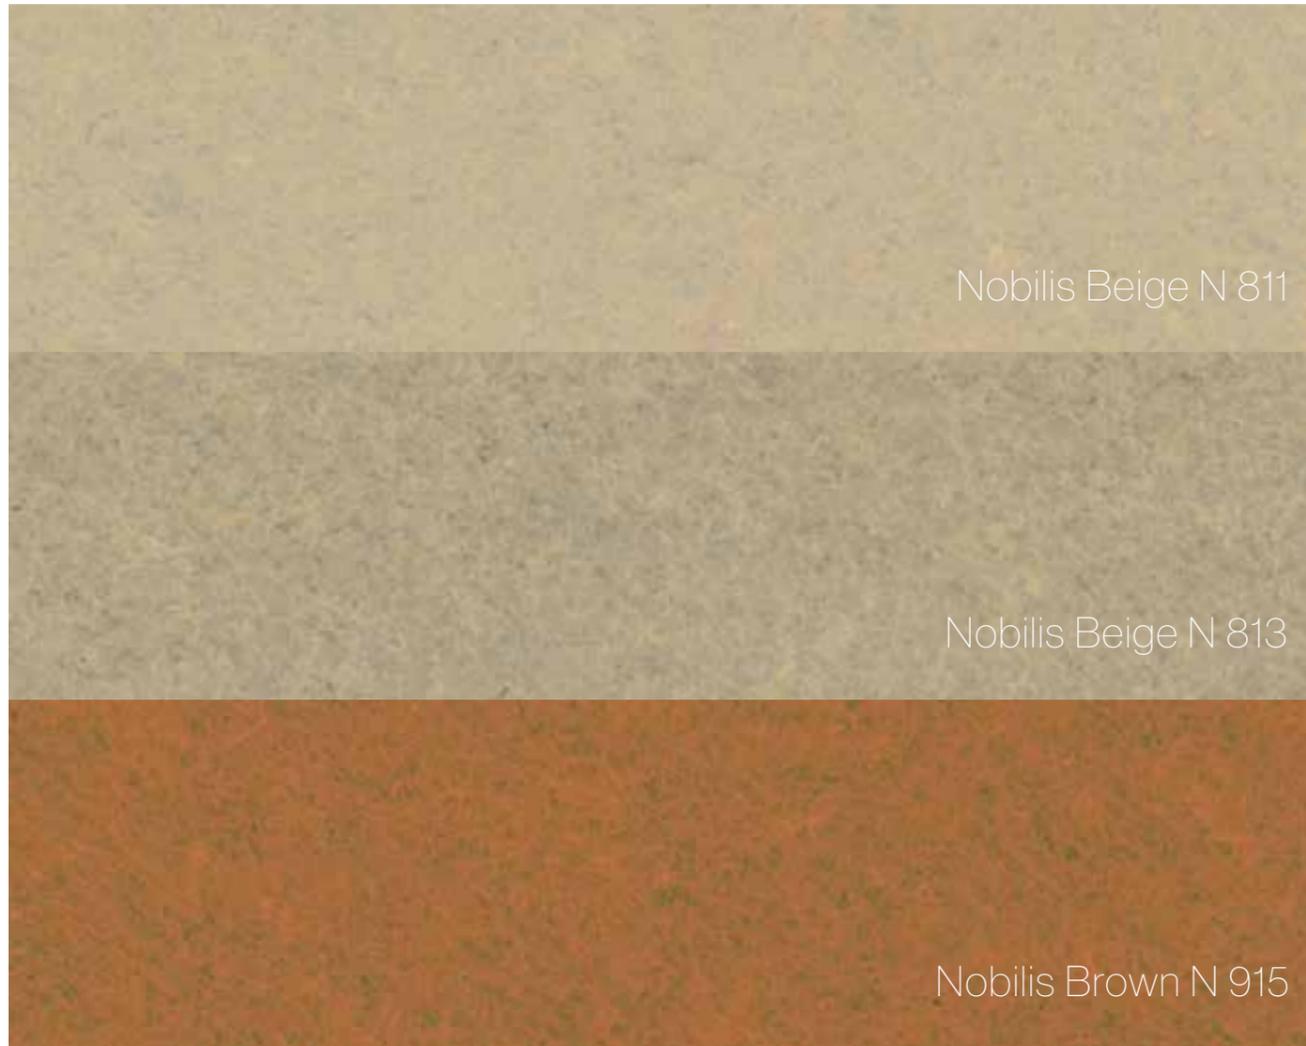

Classic fiber cement appeal

Base panel: Grey based
Top layer: Translucent lightly pigmented
Standard colors: 17

The semi-translucent surface coating on a pure acrylic basis provides the classic fiber cement appeal with much visual depth to it. For availability in HR-Coating refer to our delivery program.
